Pozidriv is a registered trademark of Phillips Screw Company. GOJO and Purell are registered trademarks of GOJO Industries Inc. All other trademarks are the property of their respective owners.

Warranty and Regulatory Information

The A-dec warranty and regulatory information mandated by agency requirements are provided in the Regulatory Information, Specifications, and Warranty document (p/n 86.0221.00), which is available in the Document Library at www.a-dec.com.

Product Service

Product service is available through your local authorized A-dec dealer. To locate an authorized dealer, or for additional service information, visit www.a-dec.com or contact A-dec at 1.800.547.1883 in the USA and Canada or 1.503.538.7478 worldwide.

</tr>
</tbody>
</table>

The features and options shown in this document may not be available for all models of A-dec Inspire. For more information about the options included with your configuration, contact your authorized A-dec dealer.

Video Support Icon

Topics noted with this icon are supported with supplemental video. Click on the icon to open the video directly in YouTube. For additional user support materials, go to www.a-dec.com/InspireSupport.
Operate / Adjust

Task Light Switch

Use the rocker switch to turn the task lights on and off. This switch will control all of the sterilization center task lights, whether you have a straight, corner, or galley configuration.

Instrument Dryer

Press the instrument dryer foot pedal to open or close the dryer. To start the dryer, wave your hand under the photoelectric sensor located on the upper cabinet. The green light blinks while the dryer is running. When the drying cycle ends, the green light turns solid.

If you open the door during the drying cycle, the dryer will stop and the green light will turn off. Close the door to reset the cycle. The cycle runs for about 14 minutes.

WARNING  The contents and surrounding metal surfaces will be hot when the drying cycle ends or is interrupted. Wait for the dryer to cool completely before removing any items.
Remove and Adjust Drawers/Shelves

Insert Drawer

Storage Drawer

Remove a Drawer or Shelf

All of the drawers and shelves remove for easy access to wiring and utilities or to retrieve anything that may have fallen behind the drawers. To accommodate a variety of applications, A-dec Inspire includes several different drawer styles, each constructed with slightly different hardware.

<table>
<thead>
<tr>
<th>Drawer/Shelf Style</th>
<th>Removal Method</th>
</tr>
</thead>
<tbody>
<tr>
<td>Insert Drawer</td>
<td>Press in the orange tabs and lift out.</td>
</tr>
<tr>
<td>Storage Drawer</td>
<td>Pull out, lift up, then pull out and down.</td>
</tr>
</tbody>
</table>

**WARNING** Do not attempt to remove the upper blue storage pullout drawers. They are heavy and may cause injury if not properly supported when removed. If you need to remove them, contact your authorized A-dec dealer for assistance.
**Adjust Drawer Face Alignment**

**CAUTION**  To avoid damaging the screws, use a #2 Pozidriv® screwdriver to adjust the screws that move the drawer face.

Storage drawers include adjustment screws on both sides of the drawer to correct drawer face alignment. To access the screws, remove the A-dec cover. The screw furthest from the drawer face adjusts up and down alignment. The screw closest to the drawer face adjusts side-to-side alignment.

**For up-and-down alignment:**

1. Remove the A-dec cover.
2. On the left side, turn the screw counterclockwise to raise the drawer face or clockwise to lower the drawer face.
   On the right side, turn the screw clockwise to raise the drawer face or counterclockwise to lower the drawer face.

---

Each side can be adjusted independently.
Adjust Drawer Face Alignment (cont.)

Side-to-Side Alignment

CAUTION To avoid damaging the screws, use a #2 Pozidriv screwdriver to adjust the screws that move the drawer face.

For side-to-side alignment:
1. Remove the A-dec cover.
2. On the left side, turn the screw counterclockwise to move the drawer face right or clockwise to move the drawer face left.
3. On the right side, turn the screw the same number of increments, but clockwise to move the drawer face right or counterclockwise to move the drawer face left.

NOTE Make sure to turn the left- and right-hand screws in equal increments. To simplify the adjustment, adjust both sides at the same time.
Power-Assisted Drawers and Doors

Waste Storage Drawer
A slight bump with your knee or hip will open the power-assisted waste storage drawer, so you won’t have to put anything down to access the waste containers.

Red Upper Storage Door

**WARNING** Stand clear while operating the door. The pressure sensitive servo that opens and closes the door helps minimize—but does not eliminate—the possibility of injury.

To operate the power-assisted red upper storage door, use the remote foot pedal or press lightly on the right- or left-lower corner.

**Wireless Sensors**
If either of the two front sensors stops working, the battery may be low and require replacement. To remove the battery, push the clear plastic tab on the sensor down and pull the black tab out.

If the door no longer opens or closes with the foot-activation pedal, contact your authorized A-dec dealer for service.
**Power-Assisted Drawers and Doors (cont.)**

**Blue Storage Pullout**
To access the blue storage shelves, use your elbow or hand to bump the upper drawer, or your knee to bump the lower drawer. A servo unit pushes the drawer out for easy access.

**Wire Dividers**
Use the wire dividers to customize cassette organization. To move a divider, push against the end that curves down and remove from the shelf. Install in the reverse, inserting the end that curves up first. For the proper fit, install the ends two rows apart.

**Remove and Adjust Doors**

**Remove Door**
Door hinges include a quick-release tab for easy removal. Start with the lower hinge and hold on to the door during this procedure:

1. Press the quick release tab and pull the hinge out slightly, leaving the center pin engaged in the hinge plate.
2. Repeat for the upper hinge and carefully remove the door.

To reinstall the doors, start with the upper hinge:

3. Align the center pin with the front of the hinge plate and snap the hinge in place.
4. Swing the door several times to ensure that the hinge is secure.
Remove and Adjust Doors (cont.)

Deactivate Soft-Close Feature

You can deactivate the soft-close feature, if desired. To deactivate, slide the black switch toward the cabinet on all hinges for that door.

Rearrange Drawers

All drawer banks are pre-drilled so the drawers can be rearranged after installation, if required. If you would like to rearrange the configuration of your drawers, contact your authorized A-dec dealer for assistance.
**Adjust Hinges/Door Alignment**

To adjust the door alignment, remove the hinge cover and follow the guidelines below.

**CAUTION** To avoid damaging the screws, use a #2 Pozidriv screwdriver to adjust the door hinge screws.

**NOTE** The screw on the hinge plate may be at the top or bottom, depending on the door configuration.

- **Side to Side**
- **Back to Front**
- **Up and Down**

For 155 degree hinges, close the door slightly for better access to the screw.
Sink Module

Foot-Activated Faucet
All A-dec Inspire sink options include a foot-activated faucet. Water temperature and flow are determined by the faucet handle position. To set, simply press the foot pedal and move the faucet handle until you reach your desired temperature and flow rate.

Air Syringe
The sink module includes an air syringe for purging water from handpieces and attachments.

Glove Shelf
Use the tray inside the sink module as a convenient place to store chemical gloves.
Glove and Towel Dispensers

Order dispenser refills that meet the following specifications:

<table>
<thead>
<tr>
<th>Product</th>
<th>Dispenser Specification</th>
</tr>
</thead>
<tbody>
<tr>
<td>Glove</td>
<td>9-1/2&quot;L x 5&quot;W x 3&quot;H carton</td>
</tr>
<tr>
<td>Paper Towels</td>
<td>Z- or Multi-Fold</td>
</tr>
</tbody>
</table>

To ensure that a glove carton is secure in the dispenser, twist the elastic band at least once before looping the end around the dispenser tab.

Soap and Hand Sanitizer Dispensers

If the auto soap and hand sanitizer dispensers are full, but not working, open the units and ensure that the shipping tabs were removed.

For refills, order the following:

<table>
<thead>
<tr>
<th>Product</th>
<th>Dispenser Specification</th>
</tr>
</thead>
<tbody>
<tr>
<td>GOJO® Soap Refill</td>
<td>90.1480.00 GOJO 2 Pack Refill Kit</td>
</tr>
<tr>
<td>Purell® Hand Sanitizer Refill</td>
<td>90.1479.00 Purell 2 Pack Refill Kit</td>
</tr>
</tbody>
</table>
Clean / Maintain

Surface Management

To preserve your investment, A-dec recommends that you use barriers where possible. Where barriers are not practical, or when cleaning and disinfection are required, use the least harmful EPA-registered disinfectants that can provide the protection you need, while reducing potential harm to the equipment.

No solution is 100 percent safe. But there are choices available today that offer a balance between effective disinfection and minimal impact to your equipment, office staff, and patients. For A-dec Inspire, use the following guidelines—and always follow the cleaner/disinfectant manufacturer’s directions for use.

Least Harmful:

- Barriers
- EPA-registered disinfecting wipes* with:
  - quaternary ammonium chlorides (”quats”) with less than 25% isopropyl alcohol
- EPA-registered disinfecting sprays* with:
  - high-dilution, water-based phenols
- Mild dishwashing liquid and water (for cleaning only)

Most Harmful:

- Sodium hypochlorite (bleach)
- Hydrogen peroxide (pH <4)
- Isopropyl alcohol (>40%)
- Products with abrasives (e.g., pumice, calcium carbonate)
- Abrasive applicators/scrubbers

NOTE* In general, disinfecting wipes (when properly used) are less harmful than disinfecting sprays—primarily due to overspray and lack of consistent application. Always follow the disinfectant manufacturer’s directions for use.

IMPORTANT For a quick reminder of these guidelines, see the A-dec Inspire Asepsis Quick Reference (p/n 86.0632.00), which was included with your dental furniture order. For more details on cleaning and disinfecting, see the A-dec Equipment Asepsis Guide (p/n 85.0696.00), which is available in the Document Center at www.a-dec.com.

Surface Management (cont.)

WARNING  Do not expose A-dec Inspire surfaces to harsh chemicals or use solvents such as acetone or lacquer thinner. If these chemicals come in contact with the surface, immediately wash them off with water, using appropriate safety measures to avoid injury.

Remove/Install Base Covers

CAUTION  Base covers are held in place with high strength magnets. To avoid pinching fingers when removing or installing the base covers, hold the base cover by the edges.
# Common Replacement Items

Contact your authorized A-dec dealer for available A-dec Inspire replacement items.
